

# European Day of Languages

On Friday the 29th of August at 12:45 pm nine- and eight-graders of Tončke Čeč Primary School visited Ivana Cankarja Primary School where they hosted an event to commemorate the European Day of Languages.

We were welcomed by some nice teachers and other students of Ivana Cankarja Primary School. After the formal greeting, we were introduced to two teachers that could speak Polish and Italian. While a Romanian teacher was sick and sadly could not come, students were divided into two groups instead of three. I was in a Polish group where we learned about the history of Poland and how to say certain words such as table, goodbye, my name is... Meanwhile the other students were learning basic Italian phrases.

When the Italian and Polish workshops finished, we were invited back to the main classroom. There was a table of typical Polish, Romanian and Italian treats that we were able to taste.
